### Program(s) Assessed Art Education

### Learning Goal/Outcome

Understand the elements and principles of art as the foundation and development of art lessons for students in K-12.

### Question

How will faculty teaching art education majors assess the students' ability to demonstrate understanding of the elements and principles of art in their lesson plans, unit plans and teaching portfolios?

### Expected Answer (hypothesis)

Throughout professional art education courses students will progressively refine their lesson/unit plans to incorporate basic elements and principles of art in challenging, problem solving art activities.

### How information will be used by the program

Assess student performance to align course goals.

### Plan (methods)

- Determine expectations that will define students' success in lesson plan development.
- Review lesson and unit plans written in Methods courses.
- Determine most persuasive evidence of student performance in classroom experiences. (Student Teaching)
- Review evaluations by cooperating teachers in school placements and field supervisors.
