

Greg Beckley
Clarinet Player

Project goals:

This project shows the fingerings for the clarinet by clicking on the notes.

Instructions for running:

Click on the note on the piano and there will be a fingering for the note and the note will sound and say the name of the note.

Evaluation:

The project does everything I want it to do and there are no known bugs.

Enhancements:

There may be a listen and play back function that can be added.
