

TITLE: Square Clicker
PROGRAMMER NAME: Greg Beckley

Overview:

When the stage is clicked then a square appears. When you click the same square, the square disappears.

Complexity:

This project involves the following techniques:

- Learning java
- Figuring out how to execute the project
- Changing the circle clicker

Interest: This is just a fun thing to do

Remix: I'm trying to change circle clicker from the moock examples.

Anticipated Problems: I anticipate that nothing will work

Implementation Goals:

Thursday: figure out how circle clicker works

Saturday: change things around to make it work

Sunday: continue to do the same thing

Monday: figure out why I can't get it to work

Tuesday: Ready for testing!

Techniques Yet to Learn:

- Learn how to execute a project

Debugging Buddy: Brian Michalowski
