Mission Statement

The Department of Music is dedicated to the advancement of the knowledge and understanding of music in its many forms. It does this through a three-part mission. First, it dedicates its energies and resources to the development of a select group of exceptionally talented undergraduate students majoring in music as Performer-Educators and Performance Majors under the tutelage of an outstanding faculty dedicated to excellence. Second, for those students majoring in other areas, the department, through active, committed involvement to the College’s liberal learning program, increases awareness of music’s impact on society, past and present. Finally, the department provides unparalleled opportunities for students, faculty, staff, and the community to be active participants in the making and/or attendance of musical performances of all types.

Background of the Department

The Department of Music has been a center for the study of music since 1916. Its graduates not only enjoy an excellent placement record for employment and graduate school, but they also consistently attain leadership positions in the varied fields of musical endeavor.

The College of New Jersey is an accredited institutional member of the National Association of Schools of Music. The department offers various programs of musical study which are consistent with the high standards, ideals, and philosophy of this organization.

The Department of Music, with its large faculty of artist teachers, offers all types of musical ensemble experience, excellent equipment, and library holdings. In addition, its varied curricula provide a wide selection of courses designed as professional preparation for work in a variety of music careers.

The College has a state-of-the-art music building that serves as the primary facility for concerts and recitals. This building contains a 300+ seat concert hall critically acclaimed for its aesthetic and acoustical properties, as well as instrumental and choral rehearsal halls, computer synthesizer and keyboard laboratories, numerous classrooms, small ensemble suites, and practice rooms.

Music does not exist in a vacuum, nor does the musician. In order to ensure a well-rounded preparation and to enrich the comprehensive awareness of the musician, provisions are built into the programs for the music major to devote study to the liberal arts.

Music Major: Performance (MUSA)

Because of the number of concentration specializations that can be pursued in this major, only the core music courses are outlined below. Students should consult with their
departmental adviser in planning the remainder of their academic program. These plans should take into account requirements for the major, liberal learning, and concentration specialization.

Music Major: Teacher Preparation (MUST)

1) A cumulative grade point average (GPA) of at least 2.75 is required for students to successfully complete the music teacher education program and be recommended for certification and licensure. To help assure that students at The College of New Jersey meet this requirement by graduation, the following procedures will be strictly followed: (1) admission to candidacy in the music education program following completion of 15 course units, and a 2.5 minimum GPA; (2) successful completion of the Sophomore Review; the Piano Proficiency, and (3) a 2.75 minimum GPA when applying for, and participating in, student teaching. Exceptions involving admission into the student teaching experience will be considered on an individual basis and granted through approval of the chair of the Department of Music and the dean of the School of Education.

2) Students also must meet the state hygiene/physiology requirement, and pass the appropriate PRAXIS examination before the New Jersey State Department of Education will issue the appropriate certificate. Teacher-Education candidates will receive a “certificate of eligibility with advanced standing” which requires a candidate to be provisionally certified for his or her first year of teaching. After one year of successful teaching, the candidate is eligible for a permanent certificate.

3) A Mantoux, or tuberculosis test, is required by the state of all students prior to the first day of student teaching. This test can be obtained through The College of New Jersey Health Center.

4) Because of the number of concentration specializations that can be pursued in this major, only the core courses of a student’s program of study are set out below. Students should consult with their departmental advisers as well as the department’s Undergraduate Music Student Handbook in planning the remainder of their academic program. These plans should take into account requirements for the major, liberal learning, professional courses, and state certification.

| **Total** | **5 course units** |

Additional Requirements

1. At least one course unit must be at the 300- or 400-level.
2. No more than two course units may be taken as an independent study.
3. Upon successful testing, students may transfer up to two course units from other institutions.
4. All courses taken must be in consultation with a Department of Music advisor.

Requirements for All Music Majors:

Since the music faculty believes that two of the most vital aspects in the growth of any musician are the listening to and performing of music, various minimum requirements have been established to ensure that all music majors are exposed to these opportunities for growth. A partial outline of requirements follows; brochures containing detailed information are available to all students through the Department of Music’s Web page or by contacting the music office.

1. All students must audition on campus for entrance into the music program and when requesting a change in major applied area.
2. All music education and performance students must present a senior recital in their major performance area. Students must register for applied study and the recital course during the semester of their recital performance.
3. Every recital presented must have a recital hearing one month before the event. Only the successful completion of the hearing will ensure a recital performance.
4. All music majors must pass a keyboard proficiency test as a requirement for graduation. Music education students, including transfer students, will not be allowed to apply for MUS 490/Student Teaching and Senior Seminar until the keyboard proficiency is passed.
5. All music majors must pass the required Sophomore Review.
6. All music majors must attend a percentage of all recitals and designated music programs.
7. Upon the recommendation of the major applied instructor, the student will perform in the student recital series each year.
8. All performance and music education students must enroll in a large ensemble each semester in which they are registered as full-time students and successfully complete the course with a grade of C– or higher. This requirement is waived only during the semester in which a music education student is student teaching. Part-time students (those taking fewer than three course units of study per semester) must petition the Academic/Performance Affairs Committee for a special exemption from Large Ensemble participation on a semester-by-semester basis.

Private Lessons

Music majors will be provided with no more than nine semesters of private applied lessons during their course of study at the College. Lessons beyond nine semesters will be fee-based. All students taking private applied lessons must complete a Performance Jury for each semester of enrollment in order to receive credit for the course.

Program Entrance, Retention, and Exit Standards

Every major program at the College has set standards for allowing students to remain in that program, to transfer within the College from one program to another, and to graduate from a program. The following are the standards for music programs. Minimum grades are noted in parentheses:

1. Retention in the program is based on the following performance standards in these “critical content courses”: MUS 300–324/Private Applied Lessons (C–) for Music Education students or MUS 400–424/Private Applied Lessons (B–) for Music Performance students; MUS 261/Musicianship I (C–).
2. Transfer into the program from another program within the College is based upon the following performance standards in these “foundation courses”: MUS 300–324/Private Applied Lessons (C–) or MUS 400–424/Private Applied Lessons (B–); MUS 261/Musicianship I (C–);
3. Music majors may be put on probation and/or dismissed from the department for any one, or a combination, of the following reasons: low GPA, failure to progress toward a degree, failure to progress on their applied instrument, and unacceptable or failing result on the Sophomore Review.
4. A Music Major may be placed on departmental probation once. A second occurrence will result in a recommendation for dismissal as a Music Major.
5. Graduation requires earning a minimum grade of C– in all courses counted toward the major except MUS 400–424 where the minimum retention standard is B– (see above).

Music Courses—Restrictions

With the exception of performance ensembles and those music courses which have specific non-music major sections, all music courses are restricted to music majors and minors. A non-music student who enrolls in major courses will be required to drop those courses unless he or she has written permission from the chair of the department.
