

Web Project Proposal

Name:

Project Title:

Technology Employed:

Project Overview, briefly describe the primary content, and purpose of the site:

On a separate page write a detailed description of your project, please include the following:

What is the goal of the project? (e.g. creative/fine art, entertainment, education, community advocacy...)

Who is the target audience?

Describe the aesthetics and metaphors used, establish an icon or header employed for unity:

How will the content achieve the intended goal of the project?

What technologies and/or materials will you employ (e.g. photography, video, HTML, CSS, Flash)?

Please attach a flowchart of your site that demonstrates all the content as organized in topics and individual pages as well as the flow of navigation.

Project Timeline, outlining the stages of development of the work through the remainder of the semester:

Due date of initial versions: November 19th - complete at least two design layouts and gather initial content.

Final version: Tuesday, December 16th 2008 11:00 AM - 1:50 pm in HH374B (Finals Date and Time)
