

## DUPLICATING TAPES

### *ONE TO ONE COPYING:*

1. Put USA original in Deck 1 of Line A copier
2. Put blank in Deck 2
3. Press "Copy Tape" button
4. To watch video as it's copying, turn on monitor and make sure the "Line" button is out.

Note: You may make two copies of two different originals simultaneously.  
Follow steps 1-3 with the Line B copier after setting up Line A. You will not, however, be able to view both videos at once.

### *ONE TO MANY COPYING:*

1. Put USA original in Panasonic Universal VCR
2. Push "USA" button on front panel
3. Put blank tapes in dual deck VCR
4. Set sources of those decks you are using (i.e. where you are putting the blank tapes) to **L2**
5. Push REC button on each of those decks used
6. Push play button on universal VCR

### *FOREIGN TO USA COPYING:*

1. Put foreign tape original in Panasonic Universal VCR
2. Push button on front panel corresponding to country who manufactured tape
3. Put blank tape(s) into dual deck VCR
4. Set sources of decks you are using to **L2**
5. Push REC button on each of those decks used
6. Push play button on universal VCR

### *LASER DISC TO VIDEO COPYING:*

1. Put laser disc in laser disc player
2. Put blank tape(s) into dual deck VCR
3. Set sources of decks you are using to **L2**
4. Push REC button on each of those decks used
5. Push play button on laser disc player

Note:

- 1) You may need to turn over laser disc and match up video with where recording last ended before playing second side
- 2) You **MUST** be sure that the Panasonic Universal VCR's power is **ON** when copying laser discs since the signal is sent directly through that machine before reaching the dual deck VCRs.
