

Meeting Minutes
Autonomous Vehicle Senior Project
(Meeting Minutes: Sept 3, 2008)
(11:55 am in AR 148)

In attendance: Dr. Hernandez, Rick Moser, Graham Apgar

Points of Interest

Last Years Team

- Graham and Rick need access to the vehicle from last year as well as the team's standing in competition. **(Dr.H)**
- Contact previous team to gain access to website and njav-l. **(Rick)**

Keys to Success

- Dr. Hernandez advised the group that history has shown that only teams that can build a working vehicle by the end of the first semester, have a good chance at competing in June. Leave second semester for testing/adjustments.

Proposal Forms

- Dr. Hernandez read and signed the senior project proposal forms for the group and Rick took the forms to make copies.

Work Distribution

- Dr. Hernandez advised the group that the electrical work on the vehicle will take less work than the computer work on the car. Rick will be in charge of fundraising, meeting minutes, updating the website, email lists, and also the electrical system of the vehicle. Graham will be in charge of the GPS and imaging software.

Meeting adjourned 12:10 pm
